Summary

Frontend Developer with expertise in React.js, JavaScript, CSS and Tailwind CSS. Skilled in building scalable web applications and integrating APIs. Passionate about performance optimization and UI improvements.

Skills

- **Frontend:** Javascript, Typescript, React.js, CSS, Tailwind CSS, HTML, Redux Toolkit, RTK Query, TanStack Query, WebSocket.
- **Backend:** Node.js, Express.js, MongoDB, PostgreSQL, Prisma, Redis
- **Version Control & Tools:** Git, GitHub, Docker

Experience

Software Engineer | Creative Buffer Consultancy Pvt. Ltd. Mohali, Punjab. **Sep 2024 - Present**

Apollo360 (EHR Patient Panel)

- Built a responsive patient panel using React, TanStack Query, and Shadcn UI to enhance accessibility.
- Engineered a real-time doctor-patient chat feature and a personalized library for assigned medical resources.
- Developed an RPM dashboard with interactive charts to visualize vital health metrics.

Oasis Notes

- Developed new pages with dynamic form fields, integrated backend APIs, and resolved UI/functional bugs.
- Implemented role-based authorization to secure access control.

Projects

Task Management (MERN Stack) | Live | Frontend Code | Backend Code

- Designed a real-time Kanban board with @dnd-kit drag-and-drop alongside an analytical dashboard using ApexCharts for productivity tracking.
- Implemented secure cookie-based JWT auth, TanStack Router protection, and server validation.

Online Job Portal (MERN Stack) | Live | Frontend Code | Backend Code

- Designed and implemented multi-role panels (super admin, admin, reviewer, user) with secure authentication, authorization, and RBAC.
- Integrated Cloudinary for storing user resumes.

Blog App (MERN Stack) | Live | Frontend Code | Backend Code

- Implemented blog CRUD operations and user authentication/authorization.

Education

Bachelor's in Computer Science | RRSIMT, Amethi, Uttar Pradesh
